REVIEW OF THE TRADE OF THE KINGDOM,
WITH THE
Official Accounts of the Board of Trade,
FOR THE THREE MONTHS ENDED APRIL 5, 1846, COMPARED WITH THE CORRESPONDING PERIODS IN THE TWO PRECEDING YEARS.

I.—An Account of the Imports of the Principal Articles of Foreign and Colonial Merchandise, and of the Consumption of such Articles, for the first three months of the Year 1846, compared with the Imports and Consumption in the same periods of 1844 and 1845 ..... PAGE 723

II.—An Account of the Exports of the Principal Articles of Foreign and Colonial Merchandise, for the first three months of the Year 1846, compared with the Exports in the same periods of 1844 and 1845 ..... PAGE 725

III.—An Account of the Exports of the Principal Articles of British and Irish Produce and Manufactures, for the first three months of the Year 1846, compared with the Exports in the same periods of 1844 and 1845 ..... PAGE 725

IV.—An Account of the Number and Tonnage of Vessels which Entered Inwards and Cleared Outwards, for the first three months of the Year 1846, compared with the Entrances and Clearances in the same periods of 1844 and 1845; stated exclusively of Vessels in Ballast, and of those employed in the Coasting Trade between Great Britain and Ireland ..... PAGE 725

V.—Classification of the Exports of the chief Articles of Manufacture, distinguishing the quantities of each shipped to each of the various Markets of the World, from London, Liverpool, Bristol, and the Clyde, from the 3rd of January to the 2nd of May, and Hull to the 25th of April, 1846, compared with the same periods of 1845 ..... PAGE 726

The general features of the trade of the present year, in the most important articles of export and import, do not differ much from those of 1845; yet there are some variations to which it will be well to call the attention of our readers.

Live Animals.—The number of live cattle imported shows a great increase upon former years; and it appears now to have acquired the uniformity of a regular trade, arrangements having been made to ensure a steady supply from a greater circle of country than hitherto. Great complaints have been made in different parts of Germany particularly of the increased price of butcher's meat caused by this trade. The following table shows the comparison of cattle imported in the first three months of each of the last three years:—

Imported—*January 5th to April 5th.*

	Cows and Oxen.	Calves.	Sheep and Lambs.	Swine.
1846	3,809	68	6,972	165
1845	943	—	814	135
1844	182	1	18	32

PROVISIONS.

In this trade, with the exception of a considerable increase in the import of salt pork, being 10,368 cwt against 7,631 cwt in 1845, and 518 cwt in 1844, there is nothing to remark upon.

Butter and Cheese.—The import and consumption of butter shows rather a decrease in comparison with last year. Of cheese, in both there is an increase, as the following table shews:—

Imported and Duty Paid *from January 5th to April 5th.*

	Butter. Imported. cwts.	Butter. Duty paid. cwts.	Cheese. Imported. cwts.	Cheese. Duty paid. cwts.
1844	27,936	29,868	36,557	46,329
1845	34,823	38,724	50,294	55,078
1846	25,956	37,320	58,726	61,869

FOREIGN AND COLONIAL PRODUCE.

Cocoa.—The import of cocoa is larger than in the corresponding period of last year. The exports are also larger than 1845, but much less than 1844. The consumption shows a steady increase. The following are the particulars:—

Cocoa—*January 5th, to April 5th.*

	Imported lbs.	Exported lbs	Duty paid lbs	Total deliveries. lbs
1846	450,025	196,119	802,415	998,534
1845	218,182	10,050	775,193	785,243
1844	228,351	1,054,232	676,260	1,730,492

The comparison between the imports and total deliveries may be stated—

January 5th to April 5th.

	1846 lbs	1845 lbs	1844 lbs
Imports	450,025	218,182	228,351
Deliveries	998,534	785,243	1,730,492

Coffee.—The importations for the whole kingdom, both of colonial and foreign coffee, exhibit a considerable decrease upon those in the corresponding periods of 1845 and 1844. In the port of London alone the import of British plantation shows a diminution, while of Ceylon the increase is large, but together for the whole kingdom there is a considerable reduction. The following are the quantities:—

Coffee—*Imported.*

	1844 lbs.	1845 lbs.	1846 lbs.
Jan. 5 to April 5—Colonial	1,671,883	990,608	677,702
— Foreign	2,769,508	3,400,418	2,287,571
Total Imports	4,441,391	4,391,086	2,965,273

The consumption of coffee is as nearly as possible the same as that of last year, being about 1,200,000 lbs greater than in 1844. The consumption of colonial coffee is a little more, while that of foreign coffee is somewhat less than last year. The export of coffee exhibits a great decrease upon both the two former years. The following are the particulars:—

Coffee—*Duty paid and exported.*

	1844 lbs	1845 lbs	1846 lbs
Jan. 5 to April 5—Colonial	5,065,354	5,345,365	5,579,623
Foreign	2,697,554	3,616,503	3,388,131
Total duty paid	7,762,908	8,961,868	8,967,754
Exported—Table II.	1,191,995	2,367,110	953,019
Total deliveries	8,954,903	11,328,978	9,920,773

The entire deliveries of coffee during the period under review, show a very large excess upon the imports, and the stocks on hand must have diminished in the same proportion between the 5th of January and the 5th of April. The following is the comparison:—

Coffee—*January 5th to April 5th.*

	1844. lbs.	1845. lbs.	1846. lbs.
Imports	4,441,391	4,391,086	2,965,273
Total deliveries	8,954,903	11,328,978	9,920,773

The stock, therefore, of coffee in bond in the United Kingdom, between the 5th of January and the 5th of April of the present year, must have diminished by 6,955,500 lbs.

Sugar.—There is no article which, at this moment, excites so much interest as sugar. The great change in the duties last year, and the approach of the most important discussions which have ever taken place on the sugar duties, as far as determining the principles on which our colonial production shall in future be conducted, give to every fact connected with this important article an unusual interest, both political and commercial. The following are the quantities of sugar, distinguishing colonial, foreign, free labour, and other foreign, in the period under review, and the corresponding periods of 1844 and 1845:—

Sugar imported from Jan. 5th to April 5th.

	1844. cwts.	1845. cwts.	1846. cwts.
Colonial, all kinds	605,351	825,341	1,912,406
Foreign free labour	——	26,546	39,012
Other foreign	90,323	111,809	117,158
Total imports	695,674	963,696	1,168,576

The quantity of sugar duty paid in the first *three months* of the present year, shows a large increase upon either of the two preceding years. It must, however, be borne in mind that last year, up to the middle of March, the trade was entirely at a stand-still, pending the introduction of the new reduced duties; which stagnation lasted until the 14th of March, so that the period before us embraced only three weeks of the deliveries after the trade again assumed its ordinary course under the new duties. The deliveries were, consequently, very large in April and May of last year; and, as we shall show hereafter, there is reason to believe that, up to the present time, the deliveries of the year exceed those of 1845 only by a very limited quantity.

The following table shows the quantity of sugar *cleared for consumption* and *exported*, and the comparison between the total imports and deliveries in each of the three last years:—

SUGAR DUTY PAID AND EXPORTED.

Duty paid. January 5th to April 5th	1844. cwts.	1845. cwts.	1846. cwts.
Colonial, all kinds	913,337	965,601	1,137,491
Foreign, free labour	—	15,063	14,890
Other foreign	20	13	22
Total duty paid	913,357	980,677	1,152,403
Exported.			
Refined, Table III, estimated as raw	53,492	80,238	69,774
Raw, Table II	67,138	85,414	32,822
Foreign refined, Table II	—	2,620	9,633
Foreign candy, Table II	—	136	9
Total deliveries for consumption and export	1,033,987	1,149,085	1,264,641

The total arrivals and deliveries may be thus compared:—

	1844. cwts.	1845. cwts.	1846. cwts.
Total imports	695,674	963,696	1,168,576
Total deliveries	1,033,987	1,149,085	1,264,641

It is, however, so essential at this moment to ascertain the exact progress of the consumption of sugar to the latest date as compared with last year, that we have adopted a plan, which cannot fail to be perfectly satisfactory as the closest approximation which can be made for the whole kingdom until the official accounts are completed. We have the deliveries for the ports of London, Liverpool, Bristol, Hull, and the Clyde, up to the 5th April, corresponding with the official accounts, and also up to Saturday last the 23rd of May, for the present year, and for the corresponding dates of last year. First take 1845:

	Jan. 1 to April 5 cwts
Sugar duty paid in *London, Liverpool, Bristol, Hull,* and *Clyde*	837,845
Ditto in the whole kingdom, per Official Accounts	980,677
Deliveries in other outports in this time, being 17 per cent. on the deliveries of the five ports	142,832
Then the deliveries at the five ports in question, up to May the 23d, 1845, were	1,567,000
To this add also 17 per cent for the deliveries at other outports, will be	266,000
Total for the kingdom to 23rd May, 1845	1,833,000

Then for 1846:—

	Jan. 1 to April 5. cwts
Sugar duty paid in *London, Liverpool, Bristol, Hull,* and *Clyde,*	1,007,670
Same for the whole kingdom, per the Official Accounts	1,152,403
Deliveries in the other outports (being 14½ per cent on those of the five ports)	144,733
Then the deliveries at the five ports in question, up to last Saturday, May the 23rd, were	1,639,000
To this add 14½ per cent for the deliveries at the other outports, will be	238,000
Total deliveries for the kingdom to 23rd May, 1846	1,877,000
Of molasses calculated in the same way, the deliveries have been to the 23rd of May, 1845	194,000
Ditto 1846	223,000

So we are enabled to make the following comparison of the consumption for the whole kingdom, from January 5th to May 23rd (last Saturday), as follows:—

Duty paid.

	Sugar. cwts.	Molasses. cwts.
Jan. 5 to May 23, 1845	1,833,000	194,000
— 1846	1,877,000	223,000
Excess in the present year,	44,000	29,000

In looking to the increased consumption of the present year, compared with 1845, it must be borne in mind that the price is at least 6s to 7s per cwt. higher now than last year; so that we are warranted in concluding that, had the stocks been abundant, and the price equally low, as it was then, the consumption of the present year would have exhibited an important increase upon that of last year. It is evident that the habits of the country tend rapidly to an increased use of sugar, which even a considerable advance in price has not reduced thus far.

TEA.—The import of tea in the present year shows a very large increase upon that of the two preceding years. The following are the particulars:—

TEA—*Imported.*

	1844 lbs	1845 lbs	1846 lbs
Jan. 5 to April 5	5,331,338	3,118,759	16,930,121

In the three months of the present year under review, the consumption of tea shows the considerable increase of more than 700,000 lbs. The quantity exported is nearly the same. The following table shows the comparison of the consumption, export, and entire deliveries of the three years:—

TEA—*Duty paid and exported.*

	1844 lbs	1845 lbs	1846 lbs
Duty paid—January 5 to April 5	9,768,960	10,422,246	11,149,713
Exported	not given	1,104,719	1,057,730
Total deliveries	—	11,526,965	12,207,443

For other articles of foreign and colonial produce, we refer the reader to the tables, none appearing to require any special remark.

MANUFACTURERS' RAW MATERIALS.

SHEEP'S WOOL.—Of this staple there is a large increase in the import of the present year, with rather a diminution in the re-export of foreign wool, leaving an increased supply for home consumption of about 1,500,000 lbs more than last year. The export of British wools, also, is very considerably less than last year. In the face, however, of these increased supplies of foreign wool, it is on all hands agreed that the stocks of home-grown wools, both in the hands of the growers and of intermediate dealers, were never on any former occasion so low. The increased importation of foreign wool may now be considered as permanent, and arising from an increased production, and not from the import of accumulated stocks abroad, which it appeared to be two years ago. The following are the quantities imported and exported in each year:—

SHEEP'S WOOL.

	1844. lbs.	1845. lbs.	1846. lbs.
Imported January 5th to April 5th	7,392,853	7,894,498	9,129,258
Exported	172,548	793,514	546,430
Left for home use	7,220,305	7,100,984	8,582,828

The exportation of English wool has been as follows:—

	1844 £	1845 £	1846 £
Jan. 5 to April 5	36,356	110,471	49,612

The importation of wool, classifying the countries from which it has been received into London, Liverpool, Hull, Bristol, and Leith, made up to the 1st of May for the present year compared with 1845, is shown in the following table:—

COLONIAL *and* FOREIGN WOOL, *imported into London, Liverpool, and Hull, from the 1st of January to the 1st of May in the years* 1845 *and* 1846, *and the total imports, including Bristol and Leith.*

Total	22,472	23,055	19,411	30,998	7,182	5,787	49,114	59,906

This table shows a decrease to the 1st of May of more than 2,000 bales of colonial wool, but an increase of foreign wool of about 12,000 bales. The whole increase, however, is more than represented by that of South American wool, which of itself shows an increase of about 16,500 bales, while of German and Russian there is a considerable decrease. In noticing the decrease of colonial wools compared with last year, it is but proper to bear in mind that in 1845 the arrivals from Australia were unusually early, which we believe to be the only reason for the apparent falling off this year. It will be observed that the present year's imports include 790 bales from the United States.

SILK.—Of *Raw Silk* there has been a very large increase in the present year, compared with 1845, and compared with 1844, the quantity is considerably more than doubled. For the first time, we have now the exports of silk included in these monthly tables, which cannot fail to be of interest. The following are the quantities of Raw Silk imported, exported, and retained for home use, to the 5th of April in each of the three years:—

SILK.—*Raw.*

	1844 lbs	1845 lbs	1846 lbs
Imported Jan. 5th to April 5th,	690,636	1,313,235	1,561,054
Exported	(*not given*)	55,953	83,622
Left for home use	690,636	1,257,282	1,477,432

Of *Thrown Silk* the imports are nearly the same as last year, but considerably larger than in 1844. The following are the particulars:—

SILK.—*Thrown of all sorts.*

	1844 lbs	1845 lbs	1846 lbs
Imported Jan. 5 to April 5	82,119	112,593	112,750
Exported	not given	8,076	8,052
Left for home use	82,119	104,517	104,698

Of *Waste Silk* the imports appear to be rapidly on the decline, as the following table shows:—

SILK.—*Waste, &c. &c.*

	1844 cwts	1845 cwts	1846 cwts
Imported Jan. 5 to April 5	4,931	3,018	1,690
Exported	not given	83	65
Left, for home use	4,931	2,935	1,625

The chief increase in the importation of silk is of China. Of Bengal, both for the four months ending the 1st of May, and for the year ending the same day, the decrease in the supply is considerable, while of China silk there is a large increase. The following is the comparison:—

	China.	Bengal.
